SuperPe   **Jul 2022 onwards**

Front-end Developer

- Developed the SuperPe app from scratch, currently having **1M+ and 30k+ downloads** on **PlayStore** & **AppStore** resp.
- Integrated payment gateway SDKs like **Juspay, Razorpay, Easebuzz** leading to a **30% rise in transaction volume** MoM.
- Integrated tools like **Amplitude, Google Analytics, FbSDK** for effective marketing and lowered the **marketing CAC by 25%**.
- Saved **40%** of **deployment time** by setting up deployment pipelines for **Google PlayConsole** and **AppStore Connect**.
- Implemented a JS and Native **crash-reporting system** in the app, and brought the Playstore app crash rate to < **0.01%.**

P R O J E C T S

Amigo   **Jul 2024 onwards**

Travel Planning App   **Google PlayStore**

- Developed **Amigo** using **React-Native**, available for early-access on PlayStore, with **30+ downloads** in **12+ countries**.
- Incorporated **GoogleMaps SDK** for location information, distance mapping and travel routing between destinations.
- Integrated **TripAdvisor and OpenAI APIs** for descriptions, place reviews, nearby attractions, language translations etc.
- Designed and developed each **screen and component** from scratch, using a **color palette** of **3-4 light shade** colours only.
- **Handled** all the **data** - storing and retrieving in the front-end itself, with active development on **backend using Node JS**.

NFT-Marketplace   **Mar 2024 – Sept 2024**

Marketplace Website   **Website**

- Developed a prototype **marketplace website** using ReactJS and Tailwind for buying, selling, collecting & bidding on **NFTs.**
- Developed and integrated a mock **wallet system** with money top-up, cryptocurrency conversion for **handling payments**.
- Created a **chatting section** to communicate with buyers and creators which provides a medium of **transparency** to all.
- Used **Fuse JS** to perform all search operations on the website including artworks, creators, messages - using **fuzzy logic**.
- **Handled data operations** on items like searching, saving, creator, owner, time left for bidding, status - upcoming/active.
